Edwin J. Ramos

929-370-7209 | Github Profile | edwinjramos.com | Linkedin

Current CS Student and Software Engineer at CUNY Queens College specializing in web development with experience in Javascript,Typescript, Ruby, Python, and C++. I discovered software engineering out of curiosity and a strong desire to produce user accessible and highly functional applications designed to entertain and solve complex problems. I bring strong team-building skills and great energy to help companies build great products and have fun doing so.

TECHNICAL EXPERIENCE AND PROJECTS
